

## Small Projects:

### **Two Side Tap Gumming line** (hot melt Adhesive Line) **Machine: 45, 50,000**

Double sided Foam tape; Glassine liner ( this is silicon paper) + adhesive (from 30gr to 60gr this is hot melt glue) + PE or EVA Foam (1,00mm) + adhesive (from 30gr to 60gr)

Machine space 30 feet x 7.5 feet x 7.8 feet. Factory Building space= 2500 Sq. Foot, **60 HP power.**

Production Capacity: 50 MPM

---

### **Egg or Fruit Tray Making: Machine cost 20, 00,000**

Building needed 1000Sq. Feet and total space needed 1500 Sq. Feet **33 HP power**

Production 1000 Trays per hour

---

### **PP SUTLI Making** (SYNTHETIC STRING): **Machinery cost about Rs. 20, 00,000**

Space needed 1200 to 1500 Sq. Feet **35 HP power**

Production 35 to 50 Kg per hour

---

### **PVC wall & Ceiling panel Making: Machinery cost about Rs. 50, 00,000**

Space needed 4000 Sq Feet.

Production capacity 100 Kg/ Hour **60 HP power**

---

**Chalk making machines.** Machinery cost Rs. 1, 80,000 for capacity 4000 Pcs/ 8 Hours, Rs. 3, 10,000 for 10000 Pcs/ 8 Hours or Rs. 4, 50,000 for 20000 Pcs/ 8 Hours capacity.

Space 500 Sq Feet.

---

### **Potato chip making line**

Flow chart: 1.clean and peeling---2 chipping---3 blanching---4 de-waterer---5 frying ---6 de-oiling---7 seasoning---8 packing

**Machinery about Rs. 16, 00,000** and Space needed can be 1500 S. Feet

**40 HP power**

---

---

### **WPVC Door frame making line**

Equipment for producing WPC door frame (60-70%PVC+ 25-30%wood powder+ Additives) of 100 to 250 kg/h capacity plant

**Machinery cost Rs 64, 00,000**   **Power connected 282 HP**   Space needed 5000 Sq. Feet

---

**Paper Pencil Making:**   **Machinery cost Rs. 6, 00,000**   Space needed 500 Sq. Feet   **Power 13 HP**

All Used paper to be used.

---

### **Facial Wet Wipes Making:**

**Machinery Rs. 35, 00,000**   Space needed 2000 Sq. Feet   **connected load needed 8 HP**

---

**LDPE Stretch Wrap film making:** **Machinery cost approximately Rs. 65, 00,000**

Production: 100 to 180 Kg per hour                      12 to 50 Micron thickness possible to make

**Power: 80 HP**   Space needed 3500 Sq. Feet

---

**PVC Window profile making:**   **Machinery cost Rs 65, 00,000**

Production:   120 to 150 Kg / hour                      Space: 5000 q. Foot.                      Power: 150 HP

---

**Air Bubble film making:** **Machinery cost Rs. 50, 00,000 to Rs. 85, 00,000**   1.5 meter width and 85 to 100 Kg per hour of production.

PE + Bubble   two layered film in 30 to 200 Micron thickness can be made and   PE + Bubble + PE three layered in 45 to 300 micron thickness possible to make.

---

**Paper Cup Making:** **Machinery Rs. 60, 00,000 to Rs 65, 00,000**   for the Printing + Cutting machinery and cup forming machinery set.

**Paper Core Making:** It is a paper Tube 1 to 16 layered Tubes with 30 to 250 mm diameter with 1 to 10 mm thickness and Production of 20 Meters per Minute.

**Machinery cost Rs. 41, 00,000**   **13HP power** and about 1000 Sq. Feet Space.

---

**Face Mask making, Show cover making and cap making,** all form Non-Woven for Medical and Hygiene applications.                      **Machinery investment Rs 50, 00,000**   **Power needed: 27 HP**

---
